An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Atabak Royaei on March 7, 2011.

The application has been amended as follows:

Amend the drawing Figure 3 by **deleting** structures [B], [C], [D] and [E] and **inserting**

EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

Applicant's amendments to the claims and declaration filed December 28, 2010 has been fully considered. In light of the Applicant's amendments, unexpected results and Examiner's amendments, claims 16, 22-24 and 26-32 are allowed and renumbered to claims 1-11.

In light of declaration filed by Dennis Emma declaring that US Patent Publication No. 2003/0096027 is not "by another", the 35 U.S.C. 102 (e) and 103(a) rejection over Babish et al. is withdrawn.

In light of the amendments to the claims the 35 U.S.C. 102(b) rejection over Newmark et al. (US 6,391,346) is withdrawn.

In light of the amendments to the claims and unexpected results, the 35 U.S.C. 103(a) rejections over Newmark et al. in view of Klusters (US 4,758,445) and Heng (WO 00/70949 A1) in view of Beiersdorf (WO 03/003997 A3) are withdrawn.

A 35 U.S.C. 102(e) rejection was not made over Babish et al. (WO 03/035007) because on March 7, 2011 Attorney Atabak Royaei informed the Examiner that the reference is not by another and thus does not qualify as prior art.

An obviousness double patenting rejection over US Application No 11/701,583 was not made because the application was filed February 2, 2007, which is after the present application. Thus, since there are no other prior art rejections and the present application was filed before 11/701,583 the rejection was not made.

The following is an examiner's statement of reasons for allowance: The claims 16, 22-24 and 26-32 are drawn to a composition comprising a reduced-isomerized isoalpa acid and a curcuminoid to reduce inflammation. There is no prior art disclosing the applicant's composition comprising the specific reduced-isomerized isoalpa acids claimed in claim 1 and a curcuminoid in synergistic amounts. The closest prior art is as follows: Newmark et al. teach compositions comprising an extract of hops and curcuminoid; Klusters et al. teach that hop extracts contain isomerized isoalpa acids; Heng teach that curcumin can treat inflammatory diseases; and Beiersdorf teach that hop extracts are used to treat inflammatory conditions. Since hop extracts do not comprise the reduced form of the isomerized isoalpa acids, nor is there motivation to include the reduced form, the claims are allowed. In addition, the Applicant's have provided unexpected results of synergy to reduce inflammation with the composition.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kendra D. Carter whose telephone number is (571) 272-9034. The examiner can normally be reached on 9:00 am - 5:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Sreeni Padmanabhan can be reached on (571) 272-0629. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
